Hi Robert,

This all looks great. Nice job! I assume your laying out key talking points for Mike regarding the CFAC site? He can sometimes get off topic without some preparation.

I may join Rich and Andrew on the Montana trip if my schedule permits so keep me in the loop on planning for that.

Thanks, Libby

Libby Faulk, Program Manager

Hi Libby, Andrew and Rich,

I am actually in the office for a few days this week and wanted to touch base with you before I am out again for a few days.

Media interest: For these engagements, I don't expect our messages to go beyond what we have already prepared except for updates on recent field work and outreach timelines. These are great opportunities for us, please let me know your thoughts.

MT Pubic Radio	CFAC	Q&A and site profile	Mike Cirian	Nov 3
Flathead Beacon newspaper			Robert Moler	
Heart Stock Radio	SBCBA	Update and Q&A	Nikia Greene Robert Moler Joe Vranka	Oct 28, Nov 4, or Nov 9

RA visit: The RA has committed to attending a presentation by the Restore Our Creek Coalition on Nov 4 @ 2pm. They plan to unveil their community vision of an upper Silver Bow Creek in Butte to EPA and have invited local, state, and national agency and elected leaders to the meeting. We are drafting talking/listening points for that engagements and I will share a draft with you soon. Media presence TBD.

Andrew/Richard MT visit: Are you still planning to visit the great Montana hinterlands this year? Next year? The RA visit in Nov may be an appropriate opportunity and we will have several other engagement sessions in Butte and other sites over the coming months. Let me know what interests you may have. Hope to welcome you in Montana soon.

PIO Training: The Incident Command System training I attended in Philadelphia earlier this month went well and I enjoyed seeing and meeting Region 3 folks. For my readiness with our Regional Response Corps and I hope to take the PIO training soon afterwards. My experience responding as the PIO to the tire fire in Pablo earlier this year was rewarding and I look forward to backing up any further responses with the appropriate certs. Thank you for any support you can offer.

My Schedule: I will be out Thu and Fri. When I get back I hope to get through some back log soon and would like if we can touch base by phone afterwards. Now that I've passed a year mark, I'd like to discuss a few ideas as I become more operational in my role as CIC in Montana and receive any feedback you may have. I am also scheduled for my performance evaluation next Tue. Any feedback and recommendations you may provide to Joe Vranka will be valuable.

Tonight I am heading to deliver a seminar for community involvement in environmental restoration at the University of Montana Technical Institute. Should be fun! Look forward to talking with you soon.

Robert
